The API Superstore revolutionized my business! Now instead of a plain old garish website, I have a garish website with social media and YouTube integration! Thanks, API Inc.! - Ken M.

Before I purchased the API Superstore, I had to make do with overly complicated tutorials. I even had to find my own links, for God's sake! I got into business to sell pictures of Spiderman, not deal with this social media garbage! I figured that instead of asking Parker to do it and having him bungle it, I'd cut out the middle-man and introduce the middle-service! Best decision I've made since the last time I fired and then re-hired Parker! -J. Jameson

This is a necessary service for anyone looking to get serious about their business' presence on the web. Not only is this service quick and convenient, but it's easily worth the money! -S. Arcasm

This service is a window into the opportunistic, cynical side of the human being. It is truly fascinating. Plus, now I have a retweet button on my website! -W. Herzog
